

Specialized Services
for Children & Youth
Together Is Better

Specialized Services for Children and Youth invites you to join us for **Breakfast at SSCY**, our monthly learning series!

Topic: Children with Medical Complexity, Complex Care, and the Manitoba Experience

Complex Care is an emerging field in Pediatrics. Children with Medical Complexity encounter the health care system at many different points and are followed by multiple health care professionals in multiple settings. It can be challenging to navigate our complex medical system and achieve cohesive, coordinated care. Complex Care programs work to improve communication and transitions within the healthcare system as well as to support and empower families in navigating care for their child.

Learning objectives:

- Understand the current definition of children with medical complexity
- Appreciate the medical and social challenges these children and families face
- Appreciate the challenges to the system that care for these children present
- Understand what Complex Care is as a specialty and the benefits the field provides

Presented by: Jenette Hayward, MD, FRCPC and Kyle Millar, MD, FRCPC

When: 8:00 – 9:00 am, Tuesday, June 11, 2019

Where: Northern Lights Room, 2nd floor of SSCY Centre, 1155 Notre Dame Ave

Parking: The SSCY Centre parking lot has paid visitor parking, and street parking may be available
