

Specialized Services for Children and Youth invites you to join us for  
**Breakfast at SSCY**, our monthly learning series!

**Topic: Patient-Reported Outcome Measures (PROMs): Using Patient-Reported Outcomes to Enhance Patient-Centred Care in Manitoba**

Patients' views of their health status are not typically sought outside of clinical research. Yet the ultimate measure of health system performance is whether it helps people recover from an illness, live well with a chronic condition, and face the end of life with dignity, and the only way to know whether we've achieved this is to ask patients themselves. Patient-reported outcome measures (PROMs) are tools that aim to measure the patient's perspective of the outcomes of their treatment and care. In this presentation you will learn more about what PROMs are and about how we hope to use PROMs to support patient-centred care in Manitoba.

**In this session you will learn:**

- What are patient-reported outcome measures (PROMs)?
- Why are PROMs important?
- How can we use PROMs to support patient-centred care in Manitoba?

**Presented by:** Sarah Kirby, MPH, & Jeanette Edwards, MHA

**When:** 8:00 – 9:00 am, Tuesday, January 14, 2020

**Where:** Northern Lights Room, 2<sup>nd</sup> floor of SSCY Centre, 1155 Notre Dame Ave

**Parking:** The SSCY Centre parking lot has paid visitor parking, and street parking may be available

**Webinar:** The session is available as a webinar; visit our website to register and watch live or to watch the recording: <http://sscy.ca/about-sscy/breakfast-at-sscy/>

**Mark your calendar for our upcoming sessions:**

**February 11<sup>th</sup>, 2020: Vicarious Trauma for Staff Providers**

Everyone is welcome to attend, and there is no need to register to watch in person
