

# Indigenous Languages and Cultures

May 19, 2026, at 8–9:00am CST

Location: Microsoft Teams

Join us to celebrate language development during Speech–Language–Hearing Month in May 2026!

Through a partnership between Children’s Therapy Network of Manitoba (CTNM) and API-Enfance, Blooming Words® is now available across Manitoba. **We invite all community partners to join us for an interactive webinar, Indigenous Languages and Cultures on May 19, 2026, at 8–9:00am CST** facilitated by Speech–Language Pathologist, Kally–Anna Clinton. This session will focus on sharing information and materials on multilingualism, highlighting the powerful role that Indigenous languages play in shaping children’s identity, belonging, and communication development. This section of the Blooming Words® program was developed through a project created with and for Indigenous communities, ensuring the knowledge shared is rooted in Indigenous ways of knowing.

This event is open to everyone. You are welcome to share this opportunity with others.

## Learning Objectives:

### CONTINUING EDUCATION

Related to Indigenous language development and multilingual environments (sequential and simultaneous bilingualism)

### GROUP DISCUSSION

To foster learning and reconciliation – building environments that honor Indigenous identities, uphold cultural safety, and recognize the importance of language revitalization

### ACCESS TO FREE RESOURCES

Culturally informed strategies for welcoming children as they transition to new environments as well as grids for screening language development

\*This session will not be recorded. If you cannot attend this event live, we encourage you to visit the site on your own or host your own group learning session. Access the materials [HERE](#) and share them widely to help support cultural and linguistic diversity in your community.

\*All materials are available in English and French.
